## HOLY LAND CEASE FIRING ORDER DUE; CAUTIOUS HOPE PREVAILS IN U. N. COUNCIL

(By Associated Press)

Arab and Jewish troops in Palestine were being ordered today to stop killing each other, effective at 2 a. m. Friday.

Only cautious optimism was expressed around the United Nations that the four-week armistice and arms embargo would endure. There was even less hope that, in four weeks of wrangling on the Island of Rhodes, a formula for permanent peace would emerge.

It was difficult to see how the basic issue of partition could be resolved, short of armed intervention by the U. N.—and that might lead to even greater, worldwide conflict.

"We have achieved only the first step," Count Folke Bernadotte, the U. N. mediator, commented in Cairo on the unconditional acceptances of the truce by Israel and the seven warring Arab states.

Irgun Zvai Leumi, once the Jewish underground but now part of Israel's army, rebuked its own government for accepting the truce. It wanted all Arabs withdrawn from Palestine and said the truce terms would mean a deterioration of Israel's political and military status.

The outburst possibly is a prelude to Irgun defiance of the truce.

The Arabs have contended that Irgun and the even more extremist Stern gang have broken past truce accords and that Haganah, now the army of Israel, has stepped in and consolidated the gains.

The United Nations tackled the problem of Russia's request that Red army men be sent to Palestine as truce observers.Bernadotte invited 21 officers each from the U. S. France and Belgium and asked for three U. S. patrol vessels, two French and one Belgium, to watch the coast. The U. S. though opposed to having the Russians in Palestine, was understood to be preparing not to oppose directly the Russian attempt to participate. Bernadotte's plan is to freeze the military situation absolutely.

War on land, sea and in the air went on in the last hours.

Cairo said Egyptian naval units destroyed port installations at Nahariya, 15 miles north of Haifa. Egyptian land troops attacked two settlements in South Central Palestine and planes bombed Rehovot, 12 miles southwest of Tel Aviv.

The Jews said nothing more about having 1,000 Egyptians encircled around Isdud, 23 miles south of Tel Aviv.

## SEC. LABOR DIES AFTER LONG ILLNESS

### Schwellenbach, Former Senator, Judge, Dead Of Heart Ailment

(By Associated Press)

WASHINGTON, June 10—Secretary of Labor Lewis B. Schwellenbach died today.

The White House announced Schwellenbach passed away at 4:40 a. m. at Walter Reed hospital. He had been ill several weeks.

He was 53 years old and had been Labor department chief since June 30, 1945.

Mrs. Schwellenbach was at his bedside at the time of his death.

The White House said death resulted from "cardiac failure which complicated his recent illness."'

President Truman, now on the West Coast, has been notified of his death.

No funeral arrangements have been made, the White House statement said.

**Former Senator**

Schwellenbach was a former Democratic senator from Washington and federal district court judge. He succeeded Frances Perkins, one of the original members of the late President Roosevelt's cabinet.

He was a senator from 1935 until his resignation on December 16, 1940, to accept the federal judgship in Washington—a post he resigned to join the cabinet.

Illness had prevented Schwellenbach from taking an active part in recurring labor crises of the last several months. Last April he took a cruise to Havana in an effort to regain his health but was removed from shipboard in New York harbor on his return. He was taken to a hospital on Governors Island for treatment of a respiratory infection.

President Truman's personal physician, Brig. Gen. Wallace H. Graham, attended him then.

Last July, while confined to the Naval hospital at Bethesda, Md., after suffering a heavy cold, reports began circulating that he might resign.

The new Taft-Hartley Labor law, coupled with sharp appropriations cuts, had stripped his once powerful department almost to a skeleton framework.

Aides who visited him at that time, however, came away with word that he was mapping a fight to rebuild the department.

The Taft-Hartley law, effective Aug. 22, 1947, took away the conciliation service from Schwellenbach and set it up as an independent agency.

But although Schwellenbach indicated that he would continue to fight, he did not rule out the possibility of resigning, and those close to him believed he would probably step out if he could "swap" back to his first love—a federal judgeship.

## Health District To Need $18,580 For Operations In 1948

LISBON, June 10—County Auditor Irvin J. Vorndran today announced sums to be withheld in taxes during 1948 from taxing districts in the county health district for the operation of the county health department.

The deductions on the basis of valuations in the taxing districts total $18,580, whereas under a part-time health commissioner the sum totalled $8,213.86 in 1946, and jumped to $15,368.12 when the change over to a full-time health commissioner was effected in 1947.

The cost to the villages and townships in the health district for the present year was compared to 1941, are shown by the tax deductions withheld by the auditor in tax settlements to the districts, as follows:

## BISHOP SAYS MAN IS 'DISILLUSIONED'

CINCINNATI, June 10—Thought-forming agencies in America received criticism last night from Bishop K. Mussio of Steubenville as he spoke at Xavier university's commencement.

The bishop said the thought-forming agency whether manifested by written, spoken or visual mediums, had the same over-all scheme "to sell the product even if it damns to hell the poor sucker who eats the bait."

The bishop charged the bait used was an appeal to the lowest instincts of man.

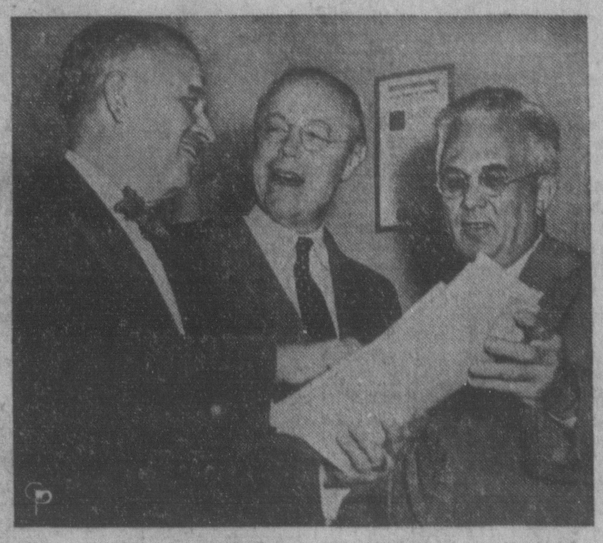

"Our time is a time of disillusionment," he told the graduates, and "men are disillusioned with themselves."

"No matter how high the ideals they expressed as motives of their actions, they have found themselves floundering in a morass of selfish and base purposes."

"Not a few of the leaders of industry, of labor with their blocks, lobbies, political interests, have disillusioned me," he declared.

Sec. of the Army Kenneth Royall was among three men receiving honorary degrees of doctor of law. Earlier he had been principal speaker at dedication of the new Xavier university armory and had predicted the Army would soon draw as many regular officers from the Officers Reserve corps as it would from West Point.

## 'POST SESSION' APPEARS LIKELY

WITH A BETWEEN-CONVENTIONS session of Congress reported in the cards, Senate Majority Leader Kenneth Wherry (left) of Nebraska, Republican Policy Leader Robert A. Taft of Ohio, and Senator Homer Ferguson (R) of Michigan confer on legislation Congress is trying to finish by June 19, proposed adjournment date. The legislation includes the draft, the Vandenberg resolution to strengthen the UN, reciprocal trade agreements, farm program. *(International)*

## *Truman Talks Bring Sharp Replies From Congress*

WASHINGTON, June 10 — The political gloves came off today in the wake of President Truman's "worst congress" blast and a Republican lawmaker's "poorest President" retort.

The long distance verbal slugfest showed every sign of turning the coming campaign into the roughest and toughest in years.

The name calling started at Spokane where Truman, openly bidding for votes on his western tour, lashed out anew at the GOP-controlled congress.

He told a civic celebration that the people don't deserve more of the present congress if they fail to vote in November.

Then, in an exchange with a Spokane reporter from the rear platform of his special train, the President caustically referred to The Chicago Tribune and The Spokane Spokesman-Review as "the worst in the United States."

**Hits Newspapers**

Those papers, he added, "got just what you ought to have—you've got the worst congress in the United States you've ever had."

There was no immediate comment from publishers of either paper.

But GOP congress members struck back swiftly and pointedly.

"There are a lot of people," commented House Republican Leader Halleck of Indiana, "who think Truman is the poorest President we have had since George Washington was elected."

House Speaker Martin of Massachusetts added: "There are people who have said that about the President."

"That's mighty big talk coming from a small boy," said Rep. Van Zandt (R-Pa).

Rep. Hope (R-Kas), chairman of the house agriculture committee, suggested that "the frigid reception which the President is receiving in the west seems to have driven him to some loose and irresponsible talk."

GOP senators were somewhat more restrained in their public comment.

But Senator Wherry of Nebraska, acting majority leader, accused the President of playing "ward politics."

Senator Taft of Ohio, chairman of the senate's Republican policy committee and a candidate for his party's presidential nomination, will have a made-to-order forum for a rebuttal tomorrow night.

Taft, who has tangled with Truman before on congress' record, is booked for an appearance on the NBC "Pro and Con" program at 10:45 p. m. The broadcast, on the subject 'Shall We Go Back To The New Deal?" was planned before the President's latest outcry.

Taft noted this and said his appearance "is not intended as a reply to Truman's statement."

Congressional Democrats were silent.

## LIE PROPOSES UN GUARD FORCE NOW

### Says Big Five Block Has Kept UN From Forming Necessary Army

(By United Press)

CAMBRIDGE, Mass., June 10 — Secretary General Trygve Lie of the United Nations proposed today the formation of an armed United Nations "guard force" to perform peace-keeping missions until the big five powers organize the permanent UN security army.

Lie said the "comparatively small guard force" should be formed soon to fill the biggest void in the UN's structure—the lack of force to back up its edicts.

Such a force probably would have been enough to prevent war in Palestine if it "had been available for immediate duty at the proper time," Lie said.

The UN chief was understood to envisage an armed force of 1,000 to 2,000 men, although he did not suggest the numerical strength.

Lie sprang his surprise proposal, the most forceful suggestion he has made as secretary general, in an address to the Harvard Alumni association on Harvard university's commencement day.

Lie's comment was aimed squarely at the Big Five, since east-west differences have blocked progress toward formation of the peace enforcement army provided in the UN charter.

Lie said he should be authorized to recruit the guard force, arming and equiping it and keeping it at the disposal of the UN Security Council for peace-keeping service.

Lie made plain that failure of the big powers to agree on UN forces has reached a danger point in the estimation of many UN officials.

His proposal appeared certain to produce reaction — not necessarily public — from the United States, Russia, France, Britain and China.

## *3-Day Haggling Expected To End With 2-Year Bill*

(By Associated Press)

WASHINGTON, June 10—Worn down by talk, senators pledged a final vote today on their peacetime draft bill.

They agreed to begin balloting on remaining amendments at 3 p. m. with the likelihood of the showdown roll call an hour later.

Both Republican and Democratic leaders forecast the military manpower bill would be approved. Then it moves over to the house for another battle.

That one won't be as drawn out — if it comes. But it still remains to be seen whether the powerful rules committee will let the bill reach the house floor.

The senate's agreement to vote—coupled with a limit on debate—came after three consecutive day-and-night sessions. Clocks in the chamber had passed the midnight hour after 13½ hours of angry debate.

**Major Features Listed**

As the climatic balloting neared, these were the major features of the bitterly contested measure to revive Selective Service:

1. All men from 18 through 25 would have to register, with those 19 through 25 subject to two years' service in the regular Army, Air force, Navy or Marines.

2. Up to 160,000 18-year olds could volunteer for one year of training and thus escape the chance of being drafted at 19 for two years.

3. Both the regular and armed services and their reserves would be expanded, with the draft used to fill up any gaps left by lack of volunteers or re-enlistments.

4. The wartime Selective Service organization with its local draft boards would be revived for two years on a reduced scale.

Although several amendments remained to be voted upon, only one major change appeared possible.

Senator Morse (R-Ore) wants to cut the term of draftees' service from 24 to 18 months. The senate beat this down by a voice vote last night before Morse realized what happened.

(At his protest, the lawmakers agreed to give him a rollcall vote today on the question of reconsideration. If that passes, Morse could ask for a recorded tally on the 18 month proposal.

Yesterday's extra-hour session produced some caustic floor arguments, a large crowd of spectators, and these results:

1. Defeat on a voice vote of the modified segregation amendment urged by Senator Russell and other southern senators. It would have required all-white or all Negro units in the armed services for men who asked to serve only with those of their own race.

**Overall System**

2. Approval, by 44 to 39 vote, of a provision for a complete overhaul of the Army and Air force court martial system. Senator Kem (R-Mo) won this after telling the senate that military justice was shocking to thousands of soldiers during World War II. An identical provision has been voted by the house as a separate measure.

3. Rejection on a voice vote of an attempt by Senator Malone (R-Nev) to revive the original separate universal military training plan.

4. Defeat, by a 56 to 24 rollcall, of an amendment by Senator Capehart (R-Ind) which would have required President Truman to "push the button" to start any actual drafting. A similar provision is in

## AIR FORCE HAS FASTEST PLANE

### Symington Reports XS-1 Flight "Much Faster" Than Sound

(By Associated Press)

WASHINGTON, June 10 — Air Secretary Symington said today the Air force research plane XS-1 several times has flown "much faster than the speed of sound."'

Symington told a news conference that so far as he knows no other plane has achieved super-sonic speed, that is, faster than sound travels.

The first and only pilot to fly the XS-1 beyond the so-called sonic wall is Capt. Charles E. Yeager, 25, a fighter pilot who destroyed 13 German planes while serving with the Air force.

Yeager, a native of Myra, W. Va., is a test pilot assigned to the air materiel command at Wright Field, Ohio.

The speed of sound is 763 miles an hour under standard conditions. Standard conditions are with a temperature of 59 degrees fahrenheit at sea level.

**Decreases with Temperature**

Sound's speed of travel decreases as temperature drops. At 67 degrees below zero its speed is 662 miles an hour. This speed of sound increases as the temperature rises.

The XS-1 flies at very high altitude where the temperatures are lower with increasing height.

Therefore, the relative speed of the XS-1 when approaching the speed of sound would be only 662 miles an hour at the high altitudes.

That speed has been reached nearer ground level by the Douglas D—58 Skyrocket, a navy research plane powered with a conventional turbo-jet engine.

## Lt. Daniel Hise Air Crash Victim

Lieut. Daniel E. Hise, 31, of Hamilton, N. Y., professor of military science and tactics at Colegate university, was killed in an airplane crash Wednesday evening at Rome, N. Y., his mother, Mrs. Alma Hise of E. State st., has been advised.

Details of the accident were not given.

The son of Mrs. Hise and the late George Hise, he was born and reared in West Liberty, Ia. He had been in the army since May, 1942.

Besides his wife and mother, he is survived by two sons, Daniel and David, and two sisters, Mrs. John Henderson of Shanghai, China, and Mrs. Alexander Rogers of Jackson, Miss.

The body is being returned to West Liberty for burial.

Miss Nora Hise of E. State st., with whom Mrs. Hise is residing, is a great aunt.

## East Liverpool Barber Shoots Wife, Arrested

EAST LIVERPOOL, June 10 — James Wilson, 41, a barber, was held on an open charge Wednesday after his wife, Weltha, 32, a bride of three months and mother of two children by a previous marriage, was hospitalized with a rifle bullet wound in the right leg.

Mrs. Wilson was shot while working in Edward Lyons' restaurant.

## 100 Welfare Workers Hear Speakers At Meeting Here

Approximately 100 persons attended the eastern regional conference of the Ohio Welfare department in Salem Wednesday, held under the direction of Matthew A. Curry, chairman of the Columbiana county department.

Five well-attended group meetings were held during the morning in the High school, covering matters and problems common to each welfare agency. The largest group attended the meeting on child welfare services, conducted by Mrs. Marie B. Thompson, executive secretary of the Mahoning County Child Welfare board.

**Subjects Covered**

The other meetings concerned such subjects as Care of Chronically Ill and Aged, Community Organization, Public Welfare Administration, and Rehabilitation of the Blind.

A luncheon was served in the Memorial building at 12:30. Rev. David Molyneaux delivered the invocation and group singing featured the program.

Following the luncheon the entire assemblage heard Dr. Everett Shimp of the School of Social Administration, Ohio State university, talk on "A Social Worker's Report to the Public."

Dr. Shimp emphasized the importance of maintaining perfect public relations and outlined many ways for agencies to accomplish the task He pointed out the need for (a) having an interested, sympathetic public, (b) adequate finances and (c) personnel with job know-how.

His talk consisted mainly of suggestions to agency workers to keep the public completely informed as to their activities and how to keep that public interested.

Following the talk discussions were held on three welfare topics: Trends in Child Welfare Services, Trends in Community Organization and Trends in Public Finances. They were conducted by Miss Marilla Green of Cleveland, Russell Leedy of Youngstown and Robert A. Fawcett of Columbus.

A group discussion followed the talks.

## 27 Arrests During May Are Recorded

Twenty-seven arrests were made during May by the police department, Chief Nerr Gaunt revealed today in his monthly report.

The breakdown on the arrests include 10 for intoxication; three for driving while intoxicated; three for reckless operation; six for petty larceny and one each for disorderly conduct, assault and battery, resisting arrest, suspicion and removing a quarantine sign.

Gaunt said three cases of breaking and entering were reported, two cases of grand larceny and 13 cases of petty larceny.

During May the traffic patrolmen issued 300 tickets, mostly for over parking. Drivers residing in Columbiana county were given 133 tickets.

Only four persons were injured in 30 traffic accidents in May. Twenty-four of these involved two cars, four involved auto-bicycle, with three persons hurt. One auto-fixed object and one auto-motorcycle accident completed the list. The motorcyclist was injured.

## CURTAIN TO RISE ON PLAY TONIGHT

## STASSEN URGES FULL ERP FUNDS

WASHINGTON, June 10 — Harold E. Stassen pleaded with congress today "not to tarnish the national honor of our country" by cutting European Recovery funds.

The Minnesotan, a candidate for the Republican presidential nomination, said a cut would be a "breach of commitment" to the 16 European nations cooperating in the Economic Recovery program.

Stassen, at his own request, was a witness before the senate appropriations committee. That group is considering a house-passed appropriation bill trimming a billion-plus dollars from the $5,300,000,000 that congress authorized last spring for recovery aid to Western Europe.

Stassen asked the committee to recommend that the senate vote the full $5,300,000,000 and insist that the house agree to it.

"I feel very deeply that much more than dollars, or materials, or recovery is involved," Stassen said. "The most precious metal in all the world is directly concerned. I consider this to be a question of the national honor of the United States of America."

## OVERCHARGES TO RENTERS ALLOWED

William H. Blackford, area rent director, announces today that the area rent office secured return of overcharges during the month of May, 1948, to tenants in the amount of $2,214.19. These overcharge payments were returned to 38 tenants.

A majority of the violations were reported by tenants who were overcharged, while others were discovered on routine checks by the rent office. During the past 12 months the office secured a return of overcharge payments for approximately 400 tenants in the amount of $13,917.19.

Blackford invites all tenants in the area which is composed of Belmont, Jefferson, Columbiana counties in Ohio to report overcharge payments to the area rent office located in the Ogden building, Wheeling, W. Va.

Rent Inspector James Wiley makes visits every two weeks to the Salem postoffice, having been here today.

## GAS BREAK HALTS SERVICE TO 5,000

STEUBENVILLE, June 10 — Gas service to 5,000 homes in Follansbee, Wellsburg, Mingo Junction and Brilliant and to all industries in Brooke county was restored by midnight Wednesday after it had been shut off at noon when a 10-inch transmission line was ripped apart at a coal stripping operation south of Wellsburg in Brooke county, W. Va.

A steam shovel owned by the McShane Construction Co. of Wellsburg tore out a section of the Manufacturers Light and Heat Co.'s main high pressure transmission line. The accident immediately disrupted service to the four communities.

S. Quay King of Steubenville, manager of the gas company's office here, notified the Pittsburgh offices and emergency crews of 250 men from six tri-state communities were sent here to supplement the local 75-man detail.

While one group worked on repairing the line, the remainder of the men visited each of the 5,000 houses in the affected area and shut off the meters as a safety precaution.

## FOUR HURT WHEN AUTOS COLLIDE

Four persons were injured in a three-car accident on the North Georgetown-New Alexander road, one-half mile south of Georgetown, at 9:40 p. m. Wednesday, the state highway patrol reported.

Injured were:

Audrey Hutter, 34, of R. D. 3, Minerva, abrasions of legs.

Mary Hutter, four, lacerated head.

Ruth Huter, 15, abrasions of legs.

Jack McIlvain, 25, of Sebring, abrasions of face, legs, chest and head, and fractured ribs.

McIlvain was brought to the Salem City hospital, where his condition is described as good today. The others were treated and released at Alliance City hospital.

According to the patrol, McIlvain was driving on the wrong side of the road and collided with a car driven by Thomas V. Hutter, 34, bounced back and hit a car which was following him, driven by Ray V. Sanor, 37, of R. D. 2, East Rochester.

The front ends of Hutter's and McIlvain's cars were smashed, as was the left side of the Sanor vehicle.

## Horse Trouble

COLUMBUS, June 10—Dwight C. Borror, a farmer living near Neighboring Jackson Pike, was sued for $150,000 yesterday as an outgrowth of an automobile accident last Sept. 16 involving his horse. He was accused of permitting the horse to "run loose." Mrs. Louise H. McComb, 41, was killed and her husband, Leo, 47, and a son, James, 18, were injured.

## Graduate Nurses To Attend Rites

The baccalaureate service for the eight student nurses who will graduate from the Salem City hospital School of Nursing will be held at 8 p. m. Sunday in the Presbyterian church, with the pastor, Rev. David E. Molyneaux, preaching from the topic, "How Long Has It Been."

The commencement will be held June 17 in Holy Trinity Lutheran church.

The baccalaureate service includes: Call to worship; organ prelude. "At Twilight"; processional, "Pomp and Circumstance"; Gloria Patri and summons to prayer; invocation; hymn, "Come Thou Almighty King"; scripture; prayer; anthem, "Sanctus," by the Haviland chair.

Sermon; benediction; recessional, "Maestoso," from Symphony in D Minor.

### Columbus Voters Said Yes

A substantial majority of Columbus voters in a special election have voted yes on a payroll-income tax of one-half of one percent. The purpose of the tax, which went into effect six months ago, is to pull the city out of a financial hole.

The issue was whether Columbus would drift into bankruptcy or take positive action to obtain adequate municipal income. A majority of voters confirmed a decision to obtain the income. The same decision was made some years ago in Toledo—by voters themselves.

Needless to say, the issue of city income and payroll taxes remains open. Nothing whatever is settled by adding one more tax to the taxpayers' burden. Columbus, Toledo and all other cities that have experimented with this kind of levy have done so because of expediency, not conviction. They chose a bad tax because it was the only way out of a predicament.

It is a bad tax because it adds needlessly to the total sum of money taken from American taxpayers. There is enough public income being collected to cover all necessary expenditures—if unnecessary expenditures were eliminated.

City residents are sending millions to state treasuries and federal treasuries and scrambling for pennies to pay for government at home. It doesn't make any sense. Reform is overdue—and in the meantime cities facing bankruptcy are being forced to adopt still more tax levies to avert disaster.

### The World Bank As a Catalyst

With the European Recovery program making headlines, the World bank has been relegated to a secondary role as a source of funds for national rehabilitation.

The bank operates on a basis different from the Economic Cooperation administration. Most of its resources come from private subscription through bond sales, and its loans are made with reasonable prospects of being repaid.

As ERP revives trade and sets self-liquidating projects in operation, the bank may play an increasingly important role in European recovery. But it is in South America that John McCloy, the bank president, sees the greatest opportunity for the bank in the immediate future. He hopes to stimulate industry there by judicious loans which will lay the basis for increased productivity. This in turn will create investor confidence. Thus the bank, if it lives up to the hopes held for it, will serve as an industrial catalyst for underdeveloped nations.

### The Facts of Life

Congress has given the armed services substantially what they asked for in the way of funds—some $13,500,000,000 plus carryovers. Now it is trying to work out a way to give them the men to staff such a fighting force, for dollars alone won't do it.

The senate has been laboring mightily to shape a presentable draft bill, never an easy task and even more difficult in an election year. The bill has had a rocky road but seems likely to pass. In the house, however, passage is doubtful.

If the measure should be shunted into a dead-end, the house will be forgetting that the nation can't buy a fighting force with dollars. It can set up a foreign legion to man outposts, as the senate proposes in its plan for drafting 25,000 aliens; it can appropriate huge funds for defense; but those sums will stand for naught unless the manpower is there. In its wrestling with the draft bill, congress has come to grips with one of the harsh facts of life. It has approved the wherewithal for a 790,000-man army. Now it has to provide the men.

### Lost In The Rush

The oleo tax repealer is likely to expire quietly in the last-minute rush to get important things done in congress.

The bill has passed the house. The senate finance committee has reported favorably on the measure, tacking on an amendment requiring restaurants to infor patrons if oleo is served. This is a matter that might better be left to the states unless the FBI is to be expanded to include an oleo inspection branch. But the important thing is the bill has cleared all hurdles up to the last, where a group of dairy state senators is muttering about filibuster if the bill comes to a vote.

As against housing the Mundt-Nixon bill, the draft and federal aid for schools, the oleo issue is a comparative trifle that the senate can conveniently shove under the rug. But it's a tangible, uncomplicated matter about which the voters can ask a lot of embarrassing questions next November.

### Everything To Gain

The Palestine truce arranged by the United Nations gives both sides everything to gain and nothing to lose.

It must be plain to the combatants by this time that they are involved in something vastly bigger than a squabble over who is to live where in the Holy land. Even if they were fighting a civil war, which they haven't been because both sides depend on outside help and most of the Arabian fighting forces are in Palestine as invaders, they would be aware of the international issues at stake.

In other words there can be no war in Palestine worthy of the name without the consent and support of outsiders. It is apparent that the outsiders are in a mood to take second thought on the matter and that mood has been conveyed to the combatants.

The truce is to last four weeks, which should be long enough to disclose how to keep Palestine from turning into another Spain.

The easier a man's job the more time he has to become dissatisfied with it.

## The Stars Say

**For Friday, June 11**
**By GENEVIEVE KEMBLE**

SINCERE, honest, well-organized methods, sustained by clever strategies or hidden factors, should be the means of placing the affairs on a firm and enduring basis.

In all plans, efforts and objectives, aim to work at basic security for the present and also the future. There may be secret agreements or commitments from those impressed by expensive and worthy efforts, but marshal all essentials toward enduring and practical ends by careful and faithful attack even on static or lagging situations.

**For the Birthday**

Those whose birthday it is may look for an excellent and enduring return for work well done, even though there may be stubborn obstacles, limitations and delays or disappointments.

But an earnest, concentrated and sustained grasp of the most obdurate conditions is bound to attract substantial rewards or practical aids for progressive and long-range benefits or stable possessions.

Hidden factors also have weight, with idealistic or constructive urges based on strong intuitions. These could be put forth by realistic and faithful attempts to vanquish all defeats, frustrations or defects.

A child born on this day, while encountering limitations or frustrations, could have hidden or inner powers to materialize its ideals, possibly by impressing others as to its sterling worth.

## ONE MAN'S OPINION

BY WALTER KIERNAN

Science has made another lunge forward . . . we now have a telescope in California so large that it takes three men to look at venus.

I hear that in the first test an American colonel peering through the eye-piece out over the Pacific found a Soviet admiral peering back.

It was one of the shortest "cold eye wars" on record.

President Truman is going to put his eye to the telescope this week — he's particularly interested in observing any stars that might happen to fall on Alabama.

In fact Democrats are lining up to test the telescope . . . they want to be sure it can pick up Philadelphia when the GOP convention opens.

Everything is in readiness for the convention . . . most of the candidates are down to fighting weight and in fact a few now look a little underweight.

## GUARDING YOUR HEALTH

### Pressure Method For Injections

By HERMAN N. BUNDESEN, M. D.

Anybody who has ever had to take frequent hypodermic "shots" over a long period of time will welcome the new jet pressure method of injecting medicine under the skin. Both the prick of the needle and the sore spot at the site of the injection are done away with by the new technique which represents the first real improvement in the hundred years we have been using injections.

Always before, when a medicine, vaccine or serum had to be given under the skin, it was necessary to administer it by means of a syringe and hypodermic needle.

**New Device**

Now a new device is available which will force such things through the skin under high pressure. The process is almost painless and no needle is necessary. Of 118 adults given injections in this way, all but two either felt no pain at all or much less than with the needle. This is a great boon to patients who require the daily administration of such things as insulin or penicillin over a long period of time. Insulin is used to control diabetes, and penicillin, as you know, is used in treating many infections.

Children do not seem to have fear of the pressure instrument as they do of the syringe or the needle. Furthermore, no sterilization is necessary with the pressure or jet injection, so that a great deal of time may be saved when large numbers of persons are being given some immunizing material.

**Metal Ampule**

The material for injection with the pressure method is placed in a metal ampule, closed with an aluminum container. The ampule, which has the shape of a blunt-nosed bullet, has a very tiny hole in the tip. The other end is closed with a rubber plug.

In using the device, the cap on the aluminum container is removed and the ampule is locked securely in the front end of the injecting instrument. A spring, controlled by a button at the back end of the container, supplies the pressure. When the button is released, a spring operates a metal plunger to force the liquid contents through the tiny opening in the form of a fine spray. This spray is so fine and ejected under such high pressure that it pierces the skin almost without pain.

In giving the injection, the skin is cleansed with alcohol and then allowed to dry. It is important for the skin to be dry because, if it is moist, the blunt end of the ampule may slip slightly and produce a tiny cut when the injection is given. The blunt end of the ampule is held against the skin, the button is pressed to release the spring, and the instrument held firmly against the skin for two or three seconds. The material injected spreads widely under the skin so that it is rapidly absorbed.

**QUESTIONS AND ANSWERS**

S. E.: What causes blood to congeal in the back of the throat during the night?

Answer: The blood in your throat may come from many sources. It may come from some disturbance of the nose or throat itself or it may come from the lungs. A thorough study should be made by a physician to determine the cause of the bleeding. Then proper treatment may be carried out.

# TRUMAN CONTINUES BLAST OF CONGRESS

## Tells Audience Present Body Is Worst In U. S. History

(By Associated Press)

OLYMPIA, Wash., June 10—President Truman punctuated his long distance attack on congress today with a broad hint of a more extended speaking campaign "when things warm up, and we get into politics."

The chief executive joked with a trainside audience at Everett last night about "this bi-partisan, non-political trip of mine."

Upon receiving a rod and reel from the crowd and being invited to enter a salmon derby, he said he didn't know whether he would be successful as he didn't know the conditions—but if he did enter he would do "my damndest" just "like I do everything else."

To audience after audience, in trainside and other appearances, the President suggested the possibility of his return later to discuss the issues of the campaign.

And before audience after audience, he has attacked congress for failing to go along with his pricing, housing and farm recommendations.

His remark to reporters at Spokane that the present congress is the worst in his memory—he first said the worst since the first one met—drew immediate response from Republican congressmen. House Republican Leader Halleck of Indiana countered by saying "there are a lot of people who think Truman is the poorest President we have had since George Washington."

Truman is billed for the third of a series of five major addresses at Seattle at 5:30 p. m. today in which he is expected to renew his promise of support for advocates of multiple-purpose development of northwestern river basins.

# 225 Enjoy Church Outing Wednesday

Two hundred and twenty-five members of the Presbyterian church and Sunday school enjoyed the annual picnic Wednesday afternoon and evening in Firestone park, Columbiana.

Baseball, horse-shoe pitching, swimming and contests preceded the dinner, arrangements for which were in charge of Mrs. Charles Tolerton, Mrs. R. B. Carey and the June committee of the Women's association.

Those winning contest prizes were Bobby Lou Wilms, Betty Rice, Bonnie Campbell, Joel Sharp, Tommy Johnson, David Sours, Edward Rice, Freddie Burkhart, among the youngsters, while Rev. David E. Molyneaux, H. L. Campbell and Dr. M. M. Sandrock carried the honors for the men. Miss Evelyn Hoch, Mrs. H. D. Hough, Mrs. James Smallwood, Mrs. Paul Hensen, Miss Janet Sangree and Miss Mary Jane Bergman received the women's awards.

Mrs. W. E. Bunn who is 92 years old, was honored when she was presented a flowering plant and a cake by Mrs. George Meiser for members of the June committee.

In the watermelon weight guessing contest, Norman Pim, Elinor Currier and George J. Bunn tied for honors but Bunn won in the draw.

Three boys, Everett Crawford, Jimmie Votaw and Robert Dunn, formed a trumpet trio who played for group singing and entertained with selections. Rev. Molyneaux led the singing.

Curtis Vaughan was in charge of the contests assisted by Elmer Kerr and John Holzworth. Alfred Fitch, Sunday school superintendent, was in charge of general arrangements.

# HARTLEY CLAIMS MINER STRIKE DUE

## Says Mine Leader Is Ready And Planning For End Of Work In July

(By Associated Press)

WASHINGTON, June 10 — Rep. Hartley (R-NJ) said today it is "obvious" that John L. Lewis is getting ready for another soft coal strike next month. He appealed to the Republican leadership to keep congress in session to deal with any such emergency.

"That Lewis is not bargaining in good faith is equally obvious," said Hartley, chairman of the house labor committee and co-author of the Taft-Hartley Labor act.

He referred to the negotiations between Lewis and the soft coal operators which began Monday. Lewis yesterday offered to keep the miners at work after their contract expires July 1, if the employers would agree to put his pension plan into effect "forthwith."

**Under Advisement**

The operators, in turn, made a full-fledged contract offer to the miners which Lewis took "under advisement." The mine owners proposed no wage increase but agreed to continue the present 10-cent-a-ton royalty to finance pensions and other health and welfare benefits.

The mine union leader and the owners recessed their contract talks until this afternoon and may give their answers to the widely-separated proposals at that time.

Hartley plainly indicated he expected a rejection from each side.

"It would be a grievous error for the 80th congress to adjourn and leave the country at the mercy of the United Mine Workers," the lawmaker told reporters. "For in Lewis there is no compassion."

The strike curbs in the Taft-Hartley law "may not be sufficient" to prevent another walkout, he said. Then it would be up to congress to act.

So, Hartley continued:

"I am making this appeal to the leadership of this congress: Forego your plans for an early adjournment. Keep this congress in readiness to deal with John L. Lewis when the time comes.

"It would be a criminal thing for this congress to adjourn, without considering the dire effects of another coal strike."

## Will Hold Hearings On Teaching Standard

COLUMBUS, June 10—The State Education department today set Monday, July 12, for a public hearing on a proposal to raise standards for health teachers.

State Education Director Clyde Hissong said school administrators will be given an opportunity to discuss changes in rules for employment of teachers in health and physical education. Deans of education, teachers and supervisors also have been given notice of the hearing.

This expansion program is due to the state department's school and community health education program which is being developed jointly with the state departments of health and welfare in cooperation with Bowling Green State university, Kent State university, Miami university, Ohio university, Ohio state university and the University of Cincinnati.

## Stamp Honors 'Progress of Women'

Commemorating the centennial of the first Woman's Rights Convention, this new stamp will go on sale July 19 at Seneca Falls, N. Y., scene of the 1848 convention. The three-cent purple stamp, honoring the "Progress of Women," pictures early feminists Elizabeth Stanton, Carrie Chapman Catt and Lucretia Mott.

# Catholic Hospitals Must Enlarge, Plea

(By Associated Press)

CLEVELAND, June 10—Catholic hospitals must provide more beds for mentally ill patients, says Dr. Pierre C. Simonart of Philadelphia.

Dr. Simonart appealed to delegates attending the 33rd Catholic Hospital association yesterday to take action to provide psychiatric units for each hospital. He also urged that more surgeons be induced to operate on mental patients.

Although there are 361 Catholic schools for nurses, he said, only 10 Catholic hospitals have facilities for studying nervous and mental disorders.

"Is it necessary that we abandon these people to state hospitals that are understaffed and overburdened?" Dr. Simonart asked. "Tribute must be paid to the personnel of state hospitals that continue to care for those whom no one else wants.

"I am ashamed when a Catholic patient asks me to find a Catholic psychiatric institution where care of the Sisters can be given a mentally sick person, and I have to admit that in 98 per cent of such cases the answer is 'no'."

Delegates, who conclude their conclave today, elected Rev. George Lewis Smith, hospital director of the Charleston, S. C., diocese, president of the group, succeeding Msgr. Maurice F. Griffin of Cleveland.

## TRUMAN STATEMENT ON SCHWELLENBACH

OLYMPIA, Wash., June 10—President Truman was notified by telephone early today of the death of Secretary of Labor Schwellenbach whom he regarded as one of his closest friends.

"I have learned with the deepest grief of the death of Lewis Schwellenbach," he said in a statement read to reporters by one of his staff.

"He was my warm personal friend. He was a great senator, a great judge and a great secretary of labor."

# Baptist Missionary Group Reviews '71 Glorious Years'

Under the theme, "71 Glorious Years," Mrs. Reed Calkins reviewed home mission activities of the Baptist church when the Women's Missionary society of the First Baptist church held a meeting Tuesday evening at the home of Mrs. Howard G. Foltz, E. State st.

Mrs. George Peterson gave a report of 64 years of mission work in the Salem church. The Farther Light society was organized in 1906. Later it was known as the World Wide Guild and the Martha Lang circle and is now the Women's Missionary society.

Five women, who were members of the Farther Light society were present Tuesday night. They are.

Mrs. Frank Bruderly, Mrs. Leroy Hartsough, Mrs. Peterson, Mrs. Richard Stirling and Mrs. Norman Kelly.

Mrs. Wallace Bowker, retiring president, inducted the new officers in an impressive candle-light service.

They are: President, Mrs. Clyde V. Williams; vice president, Mrs. John Cosgrove; mission vice president, Mrs. Magdalene Cosgrove; secretary, Mrs. N. W. Kelly; treasurer, Miss Mary Wolcott; white cross chairman, Mrs. Hartsough; Christian friendliness, Mrs. Charles Freed; Christian citizen, Mrs. Bruderly; spiritual life, Mrs. L. S. Richards; student counselor, Mrs. R. J. Hunter; program chairman, Mrs. Calkins.

Lunch was served by the hostesses, Mrs. Richards, Mrs. Clifford Stoudt, Mrs. Louis Raymond and Mrs. Harold Keefer.

The society will hold a picnic supper for members and their families Tuesday evening, June 13, in Centennial park.

## Cover Up Sensitive Shoulders

This young sun bather sensibly shades her face and shoulders with a big hat while she gives hard-to-tan legs a longer exposure.

BY ALICIA HART

DO your hard-to-tan legs suffer in comparison with those of other young girls whose underpinnings quickly acquire coppery skin tones?

Try leaving your legs out in the sun for longer periods of time. To keep sensitive face and shoulders from becoming a burnt sacrifice to this beauty objective, shade these uppers with a big hat or towel while hardier nethers are exposed.

Although skin on legs may be tougher than that on face and shoulders, there's a limit to the amount of sun that underpinnings can take. So be careful about overdoing the exposure. Best procedure is to leave legs out for five minues only the first day, a little longer the next. Gradually increase the amount of exposure.

If you're using leg make-up to fake a tan until you can acquire the real thing, leave off this covering for your sun baths. Make-up often acts as a sun-screen that delays tanning.

Many girls who find that their legs are slow to take a tan report that they've been able to speed up the process by filming on vinegar or witch hazel before they go out into the sun.

## WOMEN VOTERS TO FORM SALEM UNIT

A Salem branch of the League of Women Voters probably will be organized in the fall.

Plans for forming the organization were discussed at a picnic luncheon meeting of the Youngstown branch Wednesday at the home of Mr. Anthony Woina, Newgarden rd.

Garden flowers were used effectively in the decorations and places were set for 33. Delegates in attendance at the recent state convention in Toledo gave their report.

This was the final meeting of the season.

# Food Prices Continue Up; No Decline Seen By Expert

NEW YORK, June 10—Food prices continued their slow creeping advance this week. But buying also increased slightly, both in unit and dollar volume.

Observers said most city dwellers were paying 11 or 12 per cent more for the cost-of-living foods than a year ago. However, total payrolls were estimated to be 13 to 14 per cent higher than las year.

This furnished the money supply that kept retail food sales up 14 per cent in dollar volume for the chains and 7 per cent for the indcpendents over the same period last year.

Retailers reported an increase in the sale of canned and processed meats, but a slight drop in buying of fresh meats, canned and frozen foods, fresh vegetables and fruits, fresh fish, poultry and dairy products sold steadily, along with soft drinks and beer.

Grocer's replacement buying kept wholesale food sales about 5 to 6 per cent above last year.

Wholesalers reported a seasonal pick-up in refined sugar sales. Fresh fruits and vegetables sold well and were plentiful. Demand increased for some canned foods.

Total production of food was up slightly. Canning operations gained. Butter and cheese production advanced over last week but were still below the same period last year.

Canners reported asparagus packs may be short of consumer demand this year, as bad weather cut the crop. Cheery prices jumped as much as five cents a pound above last year's figures in some areas.

Columbia river salmon packers saw floods cut their output. Alaska salmon canners said fishermen would get higher pay this year and prices may advance this summer.

There was a divergence of views this week on the long-range prospects for food prices.

Nathan Cummings, chairman of Consolidated Grocers Corp., told the National American Wholesale Grocer's association meeting in Chicago that the United States should have ample supplies of basic foodstuffs this year. He forecast prices would decline.

Grant Gore, chief market analyst of Biddle Purchasing Co. of New York told the same meeting: "Over-all retail food sales should run higher the last half of 1948; the over-all fodd price average for the third quarter should be a little higher than a year ago."

Higher average prices to growers, processors, wholesalers and retailers were forecast by the American Institute of Food Distribution. "Larger buying by consumers will bring sustained or higher prices, except for products that are over-produced, or over-packed, or over-bought," the institute sand.

# McKeesport Couple Draw Prison Terms

PITTSBURGH, June 10—Ralph and Kartherine Bain, young McKeesport, Pa., couple who held up a bakery to finance their honeymoon, were sentenced to jail terms today.

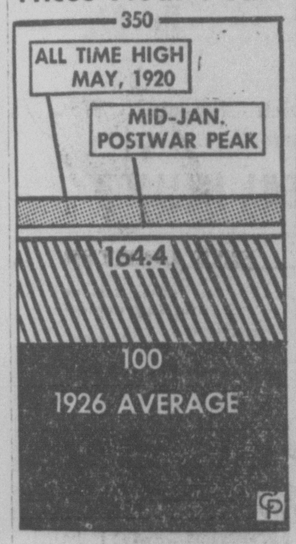

As they were parted at the "Bridge of Sighs" leading from the courthouse to the county jail, Katherine, 23, embraced her husband and sobbed "I will wait for you forever."

Bain, 21, was sentenced to 10-to-20 years in western penitentiary by Judge Roy I. Carson of Washington county, who branded him "dangerous and a menace to society."

Mrs. Bain was sentenced to three to 11 months in jail for being an accomplice in two holdups and an attempted robbery.

The young couble was arrested in Columbus after an automobile they allegedly had stolen crashed into another car. Bain threatened the driver of the other car with a revolver and told him to "keep going."

## Prices Near Peak

**WHOLESALE** prices as of May 29 were only .7 per cent under the postwar peak of mid-January, according to the Labor department's wholesale price index of 900 commodities. The level hit 164.4 of the 1926 average, which the department uses as a base of 100. But as chart shows, things were worse in 1920. *(International)*

## Salvaging $160,000

Salvage workers hoist the 3000-pound post office safe containing $160,000 in cash and stamps from the murky flood waters in devastated Vanport City, Ore. After a long search, a diver finally located the strongbox in the mud. It also contained records of more than $100,000 in postal savings deposits.

## Bridge Near Sebring Ready Late Next Month

SEBRING, June 10—Mahoning County Engineer Samuel Gould said Tuesday that the new Mahoning river bridge over nearby Lake Park blvd. will be ready about mid-July.

The original bridge, which had been sinking at the rate of three to four inches monthly, was removed a year ago. While the new structure, costing $90,000, with half paid by the county, has been under construction, principally to Route 619, main Sebring-Alliance artery. The federal government is bearing the other half of the cost.

The 1662-foot span across the Gila river between Buckeye and Gila Bend is the longest bridge in Arizona.

# SWIM COURSE AT COLUMBIANA OPENS

## Instruction Given At Firestone Pool Three Days a Week

COLUMBIANA, June 10—Swimming lessons are being given at the park pool Monday, Wednesday and Friday every week from 9 a. m. until noon. Aside from an admission charge of 14 cents, the lessons are free for children for any age up to 12.

Instructors are Perry Kyser, park superintendent; Jack Cramb, park recreational director, and Bob Little, life guard, student in John Carroll University in Cleveland, who is spending his vacation at his home in Salem.

The senior softball league and the two junior leagues have started their schedules. Kiwanis and Rotary clubs have each voted $50 toward thte support of the junior leagues.

Park Superintendent Perry Kyser has two of the four tennis courts restored with the help of a couple of local organizations which underwrote the project. He hopes to have the remaining two in shape soon, and plans a tournament this season. On account of war conditions, the courts had not been in use for several years.

**School Population Gains**

Ira Schnurrenberger has completed the school enumeration for Columbiana special district. It shows a total of 687, of whom 337 are boys and 350 girls. In that part of the district embracing parts of two townships in Mahoning county, there are 103 of school age in Beaver township and 13 in Springfield township. Of five-year-olds, the kindergarten age, there are in the district 41 boys and 30 girls.

The growth of the community is reflected in the school enumeration figures of the last three years. In 1946 there were 618, in 1947 they numbered 641, and this year a gain of 46 over last year.

Mrs. Fannie Beard Esterly and son-in-law and daughter, Mr. and Mrs. John Adams, all of Topeka, Kan., were guests the first of the week of their cousins, Misses Blanche and Leila Beard, on their way east to a Dartmouth College function. While here they received word of the death of Mrs. Esterly's brother-in-law, Prof. Herbert Harroun,, of Oberlin College, and interrupted their journey east to attend his funeral.

Mr. and Mrs. Helodore Pfeifer have moved here from Utica, N. Y., and occupied the former home of Dr. H. J. Peters, retired physician, east of town on the New Waterford road, which they purchased. Dr. Peters and wife have moved to Xenia.

**Teachers Fraternity Meets**

Alpha Iota Chapter of Delta Kappa Gamma fraternity held its final meeting of the year at Firestone park Monday evening. A picnic supper was enjoyed by 34 members of the national honorary society for successful women teachers. East Liverpool, Wellsville, Salem, Lisbon and Columbiana were represented. Mrs. Everett O. Winegord, West Park avenue, is the only local member of the Columbiana chapter. Mrs. Winegord, former Columbiana and Greenford teacher, will teach next year in the Salem schools.

York Drexler post, V. F. W., will meet Thursday evening in the Eagles lodge quarters.

Mrs. T. B. Hyland showed her friendship button collection at a meeting of the East Palestine Country club Tuesday at the home of Mrs. Mabel Stacy.

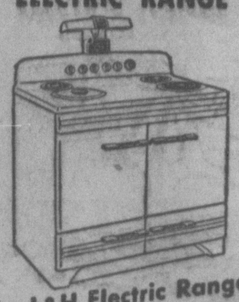

The steeple of Boston's Old North church has a chime of eight bells, oldest in America. The bells were rung there in 1744.

# Classifies Tunnel Kilns As 'Personal'

COLUMBUS, June 10—C. Emory Glander, state tax commissioner, today classified tunnel kilns of potteries as personal instead of real property in keeping with a recent Supreme court decision.

The court held tunnel kilns of the Roseville pottery and the Mosaic Tile Companies in Muskingum county should be taxed as personal property. Real estate is taxed on 100 per cent of valuation and personal property on 50 per cent.

Many county officials contended the assessment of fixed industrial equipment at 50 per cent of valuation would result in heavy losses of local revenue.

Glander said his ruling affected only the type of tunnel kilns of potteries specified in the court's decision.

He added that any attempts to classify other industrial property as personal must stand on their own merits.

Glander said he would meet next Friday with representatives of railroads operating in Ohio to discuss problems of assessing public utility properties for tax purposes.

# Vandenberg Gets Out of Tight One

WASHINGTON, June 10—Senator Reed (R) of Kansas put Senator Vandenberg (R) of Michigan squarely on the presidential spot today—but he didn't stay there for long.

Vandenberg was telling the senate appropriations committee that the Economic Cooperation Administration should be given funds for a fair trial and the results examined later. He said he might have "totally different" views in ECA by next January—after it has had a trial.

"As senator or presicent?" Reed interposed. The packed hearing room broke into a roar of laughter.

When the noise died away, Vandenberg replied:

"I would like to answer it, Senator Reed, as preident pro tempore of the senate."

Vandenberg has been frequently mentioned as a "dark horse" possibility for the Republican presidential nomination, but he has declared on every occasion that he is not a candidate.

## PLAN MAGIC SHOW AT EAST FAIRFIELD

A performance by G. H. Tutter, mentalist, will feature a magic show sponsored by the Boys and Girls 4-H clubs of Fairfield school at the schoolhouse Friday evening.

Tutter has been a student of mental and psychic phenomena for 20 years. He will open a registered letter received on May 22 by T. V. Utterback, superintendent, of Fairfield Centralized school which contains Tutter's prediction of headlines for June 11.

The entertainment will last two hours with seven members of the Youngstown Magic club also taking part.

## Indicted For Murder

## "Atomic" Trade Mark Rush About Ended Now

WASHINGTON—Bombardment of the trade mark office has virtually ceased, Department of Commerce officials report.

Besieged since Hiroshima with applications requesting registration of trade marks using the word "atomic," the harried officials said they were glad the demands had "run their course."

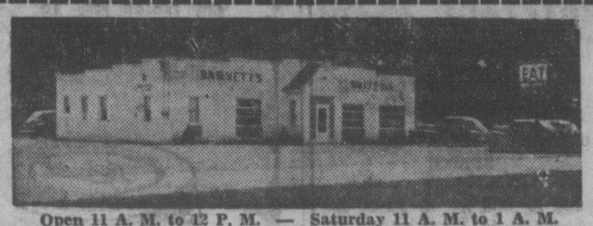

Of 180 'atomic'" applications, 54 have been registered, ranging from toys to medicines and horseshoes.

Officials said "atomic" applications were the most popular and confusing in their memory but added that "Shangri-la" did well and "Flying Saucers" hit their applications records soon after they were headlined.

## HALLECK SEES NO REASON FOR DELAY

WASHINGTON, June 10—House Republican Leader Halleck of Indiana said today he sees no reason why congress cannot adjourn as originally planned on June 19.

Without referring to statements of senate leaders that it may be necessary for congress to return between or after the party conventions, Halleck told the house:

"We can very well conclude the consideration of all measures that we ought to do and that we can afford to do."

Halleck said tax revision, farm legislation, Commodity Credit Corporation extension, housing, Selective Service, displaced persons, and appropriations are matters that still must be considered this week and next.

## Who is this Man?

Now and then, in the pages of the *Clarion*, I run a biographical quiz, under the heading of "Who Is This Man?" For instance...

"He was one of the earliest lovers in American history...

"And yet he was too shy to court a woman outright...

"He came to the New World on the Mayflower...

"A cooper to repair the beer barrels accompanying the Pilgrims...

"Who is this man?"

I thought that everybody was stumped. But not Ma Hoskins, who returned the clipping to me with "John Alden" on it. She recognized all the clues—including that reference to "beer" and "cooper."

For Ma—who's read her history, knows that beer as the beverage of moderation, is as old in this land of ours as the never-ending American search for tolerance which brought the Pilgrims over to this country in the first place.

Who Do Not Now Have Combination Windows and Doors

# Here's Why Only Weather-Seal Gives You A Written Lifetime Guarantee

Weather-Seal originated, pioneered and perfected combination storm doors and windows . . . is the oldest manufacturer in the field.

Fourteen years of continuous research have proved that no material . . . wood or metal . . . compares with selected California coastal redwood for perfect fit, beauty and permanency. For this "eternal" wood has been seasoned by the elements, almost from the dawn of history. Impervious to insects, it won't rot or warp, stays useful and beautiful.

Because no window openings are absolutely uniform in exact dimensions, your Weather-Seal installation is tailor-made to *your* openings and the work is done by our own staff of specially trained service engineers. And every installation is backed by their expert service facilities for the future.

That is why we guarantee Weather-Seal combination doors and windows to seal-in winter heat, seal-out cold and drafts . . . provide cooling, rain-free ventilation in summer for as long as your house stands.

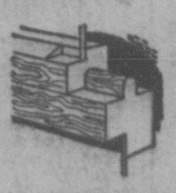

Harold A. Ettling
*President*

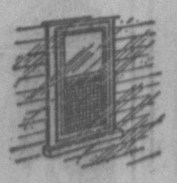

Weather-Seal windows and doors are built of age-old California Coastal Redwood . . . will not warp, rot or shrink.

With Weather-Seal, you change from winter panes to fine-mesh summer screens in a jiffy. A few turns of an exclusive screw fastening and windows and screens come out easily.

Genuine Interlock construction guarantees an air-tight installation...keeps out dirt, dust and drafts.

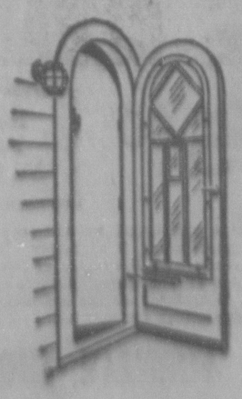

Let it rain . . . let it pour! You'll always be sure of draft-free, rainproof ventilation the year around. You'll know the real meaning of finger-tip weather control with Weather-Seal.

Weather-Seal combination windows are custom-built to the dimensions of your particular home . . . are tailor-made to *fit* and *stay* fitted.

All the rich, lustrous beauty of America's most magnificent wood is permanently yours with Weather-Seal. They'll dress up your home . . . add beauty and style.

## RIDER POOLS AID IN BUS STRIKES

(By Associated Press)

Share-the-ride "pools" took some of the sting from three Ohio bus strikes today as AFL drivers continued their walkouts for wage increases.

An international AFL union official, E. W. Oliver of Detroit, was due in East Liverpool today to confer with local unionists in an attempt to halt a four-day strike of 201 union members employed by the Valley Motor Transit Co.

Valley Motor, which operates lines in East Liverpool, Steubenville, Wellsville and Toronto, O.; Chester and Newell, W. Va. and Midland, Pa., has offered striking AFL drivers a 15-cent hourly pay hike, pending local fare hikes. Eighty garagemen already have voted to accept the increase.

The walkout, which paralyzed public transportation for 50,000 daily riders, was called to support drivers' demands for 30-cent hourly pay boosts and 20-cent hikes for garagemen.

A conference of striking AFL drivers and Garagemen and city and company officials is scheduled tonight at Springfield, O., where unionists left their jobs to enforce demands for unreported pay boosts.

At Lorain, East Liverpool and other Ohio cities industrial officials said their plant absentee lists were near normal as a result of "share-the-ride" programs and taxicab facilities.

Seventy AFL Drivers and Garagemen struck yesterday at Lorain for 30-cent hourly wage increases, and unionists turned down an offer by the Employes Transit Lines, Inc., of a 16½ cent boost. The company made the offer after city council approved a fare hike.

## Pfc. Moser Funeral Planned Monday

Funeral service for Pfc. Allen Henry Moser, 33, whose body will arrive in Salem at 11:16 a. m. Friday, will be held at 2 p. m. Monday at the Stark Memorial in charge of Rev. Ashley Wilson of the Hanoverton Presbyterian church.

Military rites will be conducted by Charles H. Carey post of Salem and Lepine-Rush post of Hanoverton-Kensington American Legion, with burial in Grandview cemetery. There will be no calling hours.

The son of John and Myrtle Hyndgen Moser, he was born near Lisbon, July 21, 1911, lived in that community all his life. He was a student in the Guilford school. On April 29, 1942, he was inducted into the army and in December of 1943 he went overseas with the Airborne Engineers. He served in North Africa, India and Burma where he was killed on July 17, 1944. Before his induction he was employed by the Babcock-Wilcox Co. in Barberton.

Survivors include a sister, Mrs. Mary Swiger of R. D. 4, Salem; and five brothers, Floyd and George Moser of Hanoverton, Grant and Ernest Moser of Alliance and William Moser of Tucson, Ariz.

## WARREN MAN GETS DAMAGES FROM ARMY

WASHINGTON, June 10 — The house took time in its pre-adjournment rush to vote $373 to Paul E. Rocke, of Warren, O., for damage done to his parked car two years ago by an Army-owned vehicle.

The accident occurred as Thomas J. Braun, a technician third grade attached to the Army recruiting station at Warren, was taking a sailor and three girls for a ride in an Army car.

He ran into Rocke's car when he turned to talk to one of the passengers. The Army said it wasn't responsible because Braun was using the car without authority.

The house judiciary committee reported, however, that Braun was authorized to take the car home at night. It said the government was responsible for Braun's driving while he had the car.

## DRAFT

(Continued from Page 1)

the house bill that has been awaiting rules committee clearance for weeks.

Both GOP policy Chairman Taft of Ohio and Acting Leader Wherry backed Capehart's proposal. It would have delayed actual drafting for 90 days after the bill became law and then require the President to start the machinery by a White House proclamation.

## Mihai, Princess Marry In Athens

ATHENS, June 10 — Mihai, the youthful ex-king of Romania, and Anne, a 24-year-old Danish princess of the house of Bourbon-Parma, were married today in the royal palace here.

In a ceremony which took slightly more than 20 minutes, Archbishop Damaskinos of the Greek Orthodox church united the royal families of Romania and Denmark. Anne and Mihai first met at the wedding last fall of Princess Elizaabeth and Prince Philip in London.

Anne, a pretty blonde who once worked as a salesgirl in a Fifth avenue shop in New York, wore a wedding gown of salmon pink and a diamond-studded diadem.

Mihai wore a Romanian army marshall's uniform.

After the ceremony the entire small wedding party went to the courtyard of the palace to meet more than a score of photographers. No reporters were allowed to attend the wedding ceremopy and they also were barred from the picture taking.

The 26-year-old former king and his bride intend to honeymoon for a time at Tatoi, the Greek Summer palace, 17 miles north of Athens.

## Candidate In Custody

JACKSON, June 10 — Benner Jones 2nd, candidate for probate judge was taken into custody in Chillicothe by state highway patrolmen yesterday on a warrant issued by the probate court. Mrs. Margaret Jones, wife of the candidate, filed a complaint charging him with being mentally ill, the sheriff's office said.

## Plane Is Damaged In Columbiana Landing

The state patrol investigated the forced landing of an airplane, piloted by George W. Carver, 24, of New Castle, just outside Columbiana, near Route 14, at 10:50 p. m. Wednesday.

The left wing of the plane was damaged, but Carver was unhurt. The plane was a single-engine Aeronca.

# Boyle's COLUMN

By HAL BOYLE

NEW YORK—I just talked to a man fresh back from Moscow, and he scared me.

Hal Boyle

He said something I have said out loud and believed in my heart for some time—that the Russians are prepared to face another war, and we are not.

This is a rough way to put the world situation, but he says it is true. He is an experienced observer. Therefore I think his views are worth presenting, even though I have to do so anonymously.

Some of them are controversial from an internal standpoint, but he isn't politically partisan himself—so here goes. He says after a year and more in Moscow:

"It is foolish for Americans to kid themselves that there is an effective resistance movement against the Russian government. There simply isn't one."

"THE RUSSIANS believe that there is only one more battle to win—the third world war," he said. "And then they feel they'll get all the advantages they don't have now."

He was speaking of the mass-produced creature comforts such as the American civilization has produced most of and been most successful in distributing among its people—motor cars, washing machines, radios, and other gadgets to relieve life's tedium.

He is very cynical, as many Americans tend to be after service abroad, and said:

"Both America and Russia are like two railroad engines headed down a one-way track toward a certain collision.

"It a hell of a way to run a railroad—and it is a hell of a way to run a world."

This man—and he is voicing only his American beliefs—feels that the one way to combat Russian expansionism is by a display of internal and external force.

"If the American people feel that the Russians are afraid of them, they are wrong," he said. "They have been told by their leaders that they won the last war, and therefore today they believe they are invincible."

He said he felt the only thing that would permanently stop the Russians from a program of conquest and assimilation was the full threat of an American fist.

"Force is the only thing they respect," he tintinued, "because that is what they live by."

I asked him how he felt about his own country's awareness of its world problems and responsibilities. He is a patriotic man who saw men die in the last war and took his own share of the risks.

He said:

"All I can say is that the Russians have been conditioned by their propaganda to fight one more war for what they believe it will get them—and we aren't willing either to fight that war or put the money into Europe to prevent it."

This is only the opinion of one man back from Moscow who says he thinks the basic issue left in the civilized world today is: "Human freedom."

He says we do have it here and they don't have it there, and that the world is a gamble between freedom and promised security. His own prejudice is toward personal freedom, and I present his views along with his prejudice.

The world, he says, will soon have to choose. It will be a momentous decision—if any historical decision can be so clear cut. Today most decisions are compromises.

Mrs. Glendon Dayton has returned to her home at McColle, Md., after a week's visit with her parents, Mr. and Mrs. Bernard Straub, Sr.

## WORLD'S BIGGEST -- "SEES" EIGHT TIMES FARTHER

WORLD'S BIGGEST TELESCOPE, utilizing a 200-inch, 500-ton mirror (right) is unveiled at Mount Palomar, Cal., by Raymond B. Fosdick (on speaker's stand, middle), president of Rockefeller Foundation, which furnished the $6,550,000 cost. Named for Dr. George Ellery Hale, who conceived the idea, the huge lens stretches man's reach into the universe eight times farther. It could conceivably be a weapon "in the insanity of a final war," says Fosdick. *(International Soundphoto)*

## Buried For Five Months, Turtle Gets His Reprieve

SOUTH BEND, Ind.—A pet turtle, buried for five months in a two-foot grave, was dug up and found to be very much alive.

Told to get rid of the turtle, eight-year-old Skipper, son of Mr. and Mrs. Clifton Copenhaver, dug a hole, deposited the turtle, and put a marker over the spot for future exploration.

Five months passed and Skipper began digging under the marker. He found the turtle still blinking. The turtle was allowed to return to the Copenhaver home.

## That "Busy Bee" Saying Is Not Wholly A Jest

BOSTON—Bees really are busy. Take it from expert George De Clyver Curtis in his new book "Bees' Ways"' they are nature's outstanding workers.

Curtis says the average lord of nectar carried by a single bee is only 20-1,000th of a pound. That means that 20,000 bees mkaing one trip each would add one pound of honey to a hive.

However, Curtis estimates in a good season he removes 200 pounds of honey from one hive besides leaving plenty for the bees' own use. In addition, one- third of the nectar is lost due to evaporation of excess moisture.

The whole thing seems incredible," he says.

## Crippled Veteran Runs Business From His Bed

FRAMINGHAM, Mass.—A 32-year-old former GI who lost the use of both arms and legs in France is conducting an export-import business at Cushing Veterans' Administration hospital with the help of the Red Cross.

Red Cross Gray Ladies serve as secretaries and researchs for Joseph Press, who once worked in the insurance and finance business in New Haven, Conn.

Although confined to bed or wheelchair, Press has started negotiations to import French perfumes for reshipment to Latin America and to move Shetland tweeds and other commodities. He does his work by correspondence after 2 p. m. daily when he finishes his hospital treatment.

Mr. and Mrs. Harold Alexander and daughter Donna were Sunday visitors with her sister and husband, Mr. and Mrs. Ellwood Herarn of Steubenville.

Mrs. Martha Hillis of Sebring spent the past week with her daughter and family, Mr. and Mrs. John Bailey.

Mr. and Mrs. Joe Marstall, Christine Marshall of Niles were Saturday callers in the home of Mr. and Mrs. Hugh McIntosh and Mr. and Mrs. and Edward Girard.

Mr. and Mrs. Samuel DeVito and son Ronnie were Sunday callers in the home of Mr. and Mrs. John Volpe.

Mr. and Mrs. William Dalrympie and daughter attended the funeral services of her nephew, Pfc. Howard W. Macklin at the Fry Funeral home in Columbiana.

Mr. and Mrs Carl Lembright and son attended the wedding of his brother, James Lembright to Miss Ann Szanisgla Saturday at St. Margaret's Catholic church in Cleveland.

## War-Scattered Family Gets Together Again

BOSTON—It took six years to re-unite Joseph Prizio's family of four, which had been scattered from Massachusetts to Vermont by the housing shortage. Prizio is a Navy veteran.

The difficulty was solved when the 42-year-old Prizio was notified he was among the first to qualify for a new home under a $20,000-000 veteran housing project.

Until now, Prizio lived with a brother in Dorchester, Mass.

His wife lived with a family in Reading, Mass.

Marie, 18, a daughter, lived with friends at Lyndon Center, Vt.

Robert, 10, a son, lived with friends in Jamaica Plains, Mass.

Enough rainfall occurs over the earth in a year to cover the entire globe almost three feet deep.

## WILL TESTIFY ON LIQUOR SHAKEDOWN

COLUMBUS, June1 0—Daniel Diloreto of Ravenna, who told the state liquor board that a liquor inspector asked him for $3,000, has been ordered to appear today before the Franklin county (Columbus) grand jury.

The jury is investigating reports that liquor department employes have tried to obtain money from permit applicants.

Diloreto is athletic director of the Ravenna Veterans of Foreign Wars.

W. R. Morris, assistant permit chief of the liquor department, said Diloreto declined to identify the inspector. Diloreto was seeking a night club permit, which the department declined to grant him.

## Pair Escape Jail

CANTON, June 10—Alliance and Sebring police have been notified by the sheriff's office to be on the alert for two prisoners who escaped from Stark county jail Tuesday night by prying a bar from a second-floor dormitory window.

Sheriff Dick France said the escapees are Wilford F. Beaver, 19, of E. Oregon St. Sebring, and Joseph C. Shields, 19, of Haycock Rd, Sebring.

Both were serving time on petty larceny charges.

## Seeks $5,000 Damages

LISBON, June 10—The Pennsylvania Railroad Co. is defendant in a $5,000 damage action filed in court by Mrs. Laura Bretz of Lisbon, who demands the sum for injuries received when she was a passenger on a train June 7, 1946. She charges she was cut by flying glass when a window broke and glass penetrated her right eye.

## Stillman's Gym, A Sweat Shop For The Open Pore

BY HAL BOYLE

NEW YORK—Lou Stillman runs the best known sweat shop in America, but it isn't producing as much sweat as it used to.

"That's one reason boxing isn't the game it was--the boys just won't train hard enough," said Lou, who is the Elizabeth Arden of the jab and jolt set.

**For thirty-one years Lou has operated Stillman's gym, an international indoor spot where professional boxers--the best and the worst--beat each other into shape for their next fight. it is also a kind of fistic stock exchange where sharp-faced managers bang their brows together and arrange bouts.**

In this dusty garden of the cauliflower ear, loud with muttered oaths and the thud of worn leather on worn flesh, redolent of wintergreen oil and old sweat, Stillman has watched more rounds of boxing than any man in history. Perhaps 1,250,000, or more.

Seven days a week, five hours a day, for more than three decades Lou has sat on a stool under the timing gong, watching mucles strain and gloved fists whack into people's faces.

**"I figure 98 per cent of the boxers train here," he said. "I've had all the champions--from Dempsey to Joe Louis."**

About 75 fighters a day work out on the bags or keep the three rings busy. The boxers in the chips hire sparring partners. The old ones going down and the young ones coming up train by boxing each other--saves money.

Stillman provides only the gong, the rings, the punching bags, and the showers. And maybe a bandage here and there. He doesn't charge by the bruise. The boxers pay $6 a month for a small locker, $10 a month for a room. Spectators fork out four-bits a visit.

**His life as tycoon of the open pore and nabob of the expanding bicep has conferred upon Lou a good-sized fortune, a dual personality, and the weary eye of a prilosophic shark. His vocabulary has a double faucet like a shower--it runs pleasantly warm or murderously cold.**

"Drop dead!" he greets a bum or grifter, with a voice like shoveled coal. He also keeps a lengthening "throw-'em-out" list of boxing hangers-on. Every time they climb the stairs to his gym, he has them pingpong balls.

"This is a tough business," Lou said. "I learned early there was a rough element in boxing, who'd run over you if they could. You can't be kind to them. They think kindness is weakness."

**Occasionally unpaid fights break out in his gym between rival managers, between managers and their fighters, and between fighters and fighters. The cause is usually spontaneous combustion arising from disputes concering the dollar.**

Lou's grating snarl is enough to break up most fights. But he long ago put in a house rule banning knives and guns.

"You'd be surprised at some of the well known boxers I've had to take knives from," he said.

Lou says modern boxers are more intelligent and better educated than the flat-nose heroes of yesterday, but lack their stamina.

"The oldtimers--fighters like Dempsey and Benny Leonard-- really worked to get in condition. The kids today want to train with one foot in the gym and the other in the street."

**Lou no longer will have much to do with a mucle after working hours. He's tired of them. Doesn't care to see bouts often, and doesn't associate with the fight crowd. He also has given up his hobbies--horseback riding and oil painting--and recently quit taking piano lessons.**

"Couldn't get along with the teacher," he said. "I wanted to learn to play tunes and she wanted me to learn to play scales."

**Did he ever box himself? Lou looked around the gym forest of sweating arms, legs and bobbing heads.**

"Think I'm crazy?"

## Hartsock Edges Seeds In Match

Five matches were played off in the June handicap tournament, first round, at the Salem Golf club Wednesday, several of the contests finishing in close fashion.

In the top flight, Walter Hartsock, one of the low handicap players, barely edged Twing Seeds one up, winning on the final hole with a 75 to Seeds creditable 82. On the first round Hartsock shot a 37, but was one down to Seeds, who fired a subaverage 38. Hartsock gave Seeds six strokes.

Al Juhn eliminated Dick Lawrence two and one in another upper flight battle.

In the lower flight Dr. George Jones won over Ward E. Eckstein, eight and six. Clarence Hartsough won over Carl Sekley five and four and Roy Yeager defeated Jennings eight and seven.

First round matches must be played off by Monday, Pro Andy Mocsary reminded golfers today.

## W. Michigan To Play Michigan and Illinois

CHAMPAIGN, Ill., June 10—Western Michigan will oppose Michigan and Illinois will meet Ohio university here tomorrow in the opening round of the district 4 National Collegiate Athletic Association baseball playoffs.

The winners of tomorrow's games will meet at 3 p. m. Saturday for the championship and the right to represent the district in the eastern finals at Winston-Salem, N. C., June 15-19.

Illinois will start Marv Rotblatt on the mound against Ohio U. His opponent probably will be Mark Wylie, righthander, who has won 9 and lost six for the Bobcats.

## Senior Golf Tourney Underway In Capital

COLUMBUS, June 10 — Ohio's eighth annual Senior golf tournament opened today over the long, exacting Scioto Country club links.

Allen Rankin, the defending champion, was tagged as the man to beat in the 36-hole event. He will be playing over his home course.

Robert Stranahan, the Toledo spark plug millionaire and father of Amateur Frank Stranahan; Tony Vitt of Cleveland and Frank Thomas of Granville were conceded chances of stopping Rankin.

There will be 18 holes today and 18 tomorrow. A record field of 150 is entered.

## Phillies Right In Thick Of Hottest National Loop Race In Years; Tribe Idle

BY JOE REICHLER
Associated Press Sports Writer

Apparently all that was troubling young Curt Simmons was a case of big league jitters.

**Off to a poor start, the 19-year-old Egypt, Pa., High school graduate who received a record bonus of $60,000 from the Philadelphia Phillies last summer, is beginning to pay dividends on the investment.**

The solidly-built southpaw gave the most impressive performance of his brief career last night when he outpitched the Great Ewell Blackwell as the Phillies defeated the Reds 3-2 in Cincinnati.

Simmons was tagged for nine hits, but in only two innings did he allow more than one hit. He struck out nine Redlegs.

**The victory, which advanced the fifth place Phils to only two and a half games behind the first place New York Giants in one of the closest races in National league history, was Simmons' third in succession. He now has a record of four victories and four defeats. Just two weeks ago, Curt boasted only one victory against four setbacks.**

Dick Sisler, hard-hitting Philly first baseman, accounted for all Philadelphia's runs with his ninth home run of the season which came with two men aboard in the third inning.

Blackwell, the Reds' ace righthander, who gave up only five hits, was lifted for a pinch hitter in the seventh inning.

The St. Louis Cardinals missed an opportunity to take over first place when they suffered an 11-5 setback at the hands of the Boston Braves in a night game in St. Louis. A victory over the Braves would have put the Cards half a game on top.

**The Giants, who started the day with a four percentage point lead, had split a double header with the Cubs in Chicago and lost their four-point bulge. So, instead of being in second place, the Giants found themselves in front by half a game when the Cards got whipped.**

After presenting the Cubs with five unearned runs to drop an 8-7 decision in the opener, the Giants came back to win the nightcap 5-1.

Ralph Kiner's three-run homer highlighted a five-run first inning and gave the Pittsburgh Pirates now trail the third place Braves by three percentage points.

**The Detroit Tigers came from behind twice to hang another defeat upon the skidding Athletics, 7-4 in a night game in Philadelphia. It was the A's fifth straight loss and dropped them into third place, a half game behind the New York Yankees. Philadelphia is now four games behind the American league leading Cleveland Indians.**

Early Wynn registered his sixth victory as the fast-travelling Washington Senators whipped the St. Louis Browns 5-2 in another night game in Washington.

Rain forced the postponement of twog ames in the American league, Chicago at New York and Cleveland at Boston.

## Major League Heads Meeting In Cincinnati

CINCINNATI, June 10—Major league baseball's executive council was scheduled today to hold a quarterly meeting at Commissioner A. B. Chandler's offices here today for a pre-discussion of matters to come before the major league club owner's mid-season joint meeting at St. Louis July 12.

Today's session is expected to be highlighted by possible changes in the game's bonus rules.

The council consists of Chandler; National League President Ford Frick; American League President Will Harridge; Warren Giles, president of the Cincinnati Reds, and Leslie M. O'Connor, vice-president of the Chicago White Sox.

**Just Seven**

NEW YORK—Only seven players started the 1948 American League season with lifetime batting averages of .300 or better—and two of them are members of the Chicago White Sox. Taft Wright's seven-year average at the plate is .320 while Luke Appling's mark over 17 seasons is .312. The others are Ted Williams, .351; Joe DiMaggio, .331; John Pesky, .330; Barney McCosky, .319, and Dick Wakefield, .303.

## ACE INTERRUPTS TRAINING SLATE WHEN RAINED OUT

### Routine Thrown Off When Bad Days Come; Missed Start Wednesday

(By International News Service)

BOSTON, June 10 — Bob Feller, Cleveland Indians' ex-No. 1 hurler, has suffered many defeats, but he has taken his worst beating from the weatherman this season.

**For the sixth time in the 1948 campaign and third within a week, Feller was rained out of a pitching assignment. He was scheduled to start against the Boston Red Sox in the second of a three-game series yesterday, but rain and cool weather brought about another postponement.**

Although the ace speedballer does not use the weather as an excuse for his relatively poor showing to date, he has been greatly perturbed that he has been forced to alter his entire training schedule between games.

"I'm not any different than any other pitcher in that respect," Feller said. "Any pitcher must work his regular turn and get his in-between exercising in some sort of a regular pattern to pitch his best."

**When the strikeout king pitches with three days of rest he carefully plans and carries out a physical conditioning program between assignments. The day after his works he loosens up his arm lightly and runs in the outfield to break a sweat. The second day he works hard, often pitching batting practice.**

After he tapers off on the third day with a little running, he is ready to pitch once more. Should it rain his schedule is thrown for a loss.

With the season a little more than one fourth completed, the big three, Feller, Bob Lemon and Gene Bearden, has compiled a total of 19 triumphs.

## GRAZIANO STILL 11-5 FAVORITE OVER OPPONENT

### Zale-Rocky Battle Missed Wednesday Due to Rain; Set To Go Tonight

By JACK CUDDY

NEWARK, N. J., June 10—Champion Rocky Graziano remained an 11-to-5 favorite today to beat Tony Zale despite a 24-hour postponement of their middleweight title fight that will be held at Ruppert stadium tonight, weather permitting.

**Zale was expected to retain his sharpness, for the 34-year-old challengers is a calm veteran whose 15-year professional record discloses that he cashed in on at least three important postponements.**

No change was noted in Promoter Andy Niederreiter's optimism. Armed with another favorable forecast byy the U. S. weather bureau, Niederreiter said yesterday's washout might swell the gate, instead of paring it down.

He said the crowd might exceed his previously expected 22,000, and the gate might pass the anticipated $350,000.

**The weather man predicted "cloudy and warmer" for tonight, with "rain unlikely."**

Trainer Whitey Bimstein said Graziano would weigh about 160 pounds, the middleweight limit, although he could go over that mark if he wanted to, since there would be no weigh-in before the fight. At yesterday's figure disclosed that the advancing years have not put blubber on the challenger from Gary, Ind. It was 1¼ pounds less than Zale's weight when he knocked out Rocky in their first fight, September, 1946, at New York's Yankee stadium.

**When Graziano wrested the crown from Tony on a technical knockout at Chicago last July, Rocky weighed 155¼; Tony, 155.**

Tonight's main bout was scheduled for 10 p. m. It will be broadcast over the mutual network.

## VFW SOFTBALLERS SUBDUE MERCHANTS

The Salem VFW won out 11-10 in a Salem A. C. tilt Wednesday over the Salem Merchants at the E. State st. diamond. The Salem outfit is now in third, tied with the Merchants.

The game at the park tonight involves the Lisbon Merchants and the Hanoverton American Legion.

## VANDALIA SCENE OF TRAPSHOOT FOR 62ND ANNUAL MEET

BY FRITZ HOWELL
Ohio AP Sports Editor

VANDALIA, June 10—Ohio's top flight trapshooters go after the state's 62nd annual class championships in a 200-target 16-yard event today. A dozen other states also will be represented.

**The state association has dumped $1200 added money into the prize list. But the front line marksman can win much more than that by playing the open optionals—that unique system by which the amateur marksmen bet on their own prowess.**

The optional system is expensive. For the $9 shooter may fire for the not-too-big prizes offered in the regular shoot. But if he plays the optionals there's an added charge of $35. On top of that each must pay for eight boxes of 12 gauge shotgun shells.

Defending the No. 1 title today (Class A) is Joe Hiestand. The Hillsboro farmer who a few years ago broke 900 targets in a row from 16 yards in the grand American. And yesterday cracked 49 out of 50 in the difficult doubles race in which two targets are tossed at the same time.

**Other defending champs are Class B—O. E. Inloes of Hamilton and M. O. Devers of Dayton who tied a year ago; Class C—Ed Heister of Columbus; and Class D—W. Mowry of Mt. Orab.**

Yesterday's 16-yard preliminary tuneup wound up in a deadlock between P. O. Harbage, former North American clay target champion from West Jefferson, O., and Floyd Kreischer, C and O railroader from Walbridge near Toledo. Each broke 100 in a row, a feat Harbage has performed numerous times, but the first for Kreischer—who has been shooting since 1912.

**Five shooters tied in the 50-target handicap tuneup with 49 each. They were Mill Edlred of Cincinnati, former state champion, A. H. Kraft, Massillon policeman described by Hiestand as the "hottest shooter in the state," M. E. Hypes of West Alexandria, Tom Christy of Groveport and Earl Spitler of Union.**

## BLISS, DINER LOSE TO CANTON CIGARS

In a special attraction at West End park Wednesday the Canton Carvers Cigars, a top-notch Class A club, defeated Salem's Bliss team 1-0 and the Salem Diner 3-0 before a good-sized crowd.

## FAVORITE HOGAN FACES TOUGH GO

### National Open Tee-Offs Set Today; Field Is Impressive Again

LOS ANGELES, June 10—Favorite Ben Hogan and about as fine a competitive field as the country has to offer teed off today in the 48th U. S. Open golf championship.

**The pint-sized Hershey, Pa., star with the long, straight shots was the logical choice to lead the pack when the famed trophy is awarded at the 72-hole conclusion Saturday.**

Riviera is the longest layout over which the National open has been played. Its par is 35-36—71.

The links derby that will decide whether Lew Worsham of Oakmont, Pa., will retain the laurels he reaped a year ago at St. Louis, comprised the best in the land plus Bobby Locke of South Africa.

**Defending Champion Worsham, incidentially, was not conceded much of a chance.**

Expected to tread on Hogan's heels were the casual Locke and the boomer from White Sulphur Springs, Va., Samuel Jackson Snead.

Behind Hogan, Locke and Snead were 25 or more who could fill the specifications of a champion.

**They included Smiling Jimmy Demaret of Houston, Tex., Slim Lloyd Mangrum of Niles, Ill.; Chick Harbert of Northville, Mich., N. Y. and Calude Harmon of Mamaroneck, N. Y.**

Herman Keiser of Akron, O. and Toney Penna of Cincinnati.

### Melillo Manager

# RUSSIA EXPANDS AID TO NEIGHBORS

## Out To Catch U. S. In Per Capita Production, Newspapers Say

BY EDDY GILMORE

MOSCOW, June 10 — Russia is ready to increase economic aid to nations which have friendly relations with her, the Moscow press announced today.

Izvestia, the government newspaper, and Pravda, organ of the Communist party, made the announcement in editorials hailing Moscow's reduction (by 50 per cent) of reparations due from Finland, Romania and Hungary as a far-reaching diplomatic move.

At the same time Izvestiai denounced American aid in Europe as a mask for economic subjugation.

**Will Catch U. S.**

Moreover, Izvestia said Russia now is out to catch up with the United States in per capita production, and thus hopes to surpass America because of her larger population.

"The immense results of economic reconstruction attained by the Soviet Union in the post war years have permitted the U. S. S. R. to bring a new approach to the question of reparations payments which, according to the peace treaties, such nations as Hungary, Romania and Finland must pay," Izvestia said.

The reductions of reparations, said the newspaper, were important "as a manifestation of the Soviet Union's readiness to contribute to the economic rehabilitation and development of friendly countries."

Izvestia added:

"It is common knowledge that in the post war world there are plenty of instances when big and economically stronger states seek to utilize European countries economically weakened by war and to impose on the latter their own policy in order to subordinate the smaller countries to the selfish, narrow interests of the bigger ones.

"It is also known that these big states are not at all averse to using for these purposes economic 'aid' which, when put to the test, proves to be a camouflaged plan for subjecting independent nations to their economic and political influence. It is known also that this aid is aimed primarily at forming military-political blocs, at kindling hatred among nations."

## SEES NO STEEL MILL ADDITIONS

YOUNGSTOWN, June 10 — It is "inconceivable" that any new large-scale steel mill's will be constructed at present high costs.

This was the opinion expressed last night by Norris J. Clarke of Cleveland, senior vice president of Republic Steel Corp., as he addressed Youngstown district fabricators.

Clarke said present construction costs of steel facilities amount to $300 a ton of annual capacity while most of today's mills cost less than $50 per ton.

He added that the industry is spending $1,700,000,000 for equipment but that it "is mainly for improving existing facilities."

## Household Hints

Take some ordinary glasses that can be found in the ten cent store and dress 'em up. Use nail polish to mark them with personized messages. "We," "You," and "Us," are good individual labels to prevent drinking glasses from getting switched around at parties.

Spray walls, woodwork, baseboards and shelves with DDT to protect against clothes moths and carpet beetles for the warm weather season, the U. S. Department of Agriculture advises. An oil spray is best for this purpose because it does not leave a white deposit as the water spray does, experts say.

# GOODYEAR HANGAR MAY BE CENTER FOR NEW WAR JOB

## Talk of Reviving 'Blimp' Building At Akron As Part of Defense

BY FRED J. ZUSY

WASHINGTON June 10 — The giant Goodyear dirigible construction hangar at Akron, Ohio, may become the center of a reactivated blimp industry.

The house yesterday approved legislation authorizing the maritime commission to develop, experiment with and operate lighter-than-air aircraft.

The bill, which now goes to the senate, authorizes whatever funds are necessary. Separate legislation would be necessary, however, to finance any program.

Some military leader have opposed dirigibles as too vulnerable to attack.

Chairman Weichel (R-Ohio) of the house merchant marine committeefi which approved the legislation as a defense measure, told a reporter that Akron, as the center of all past dirigible construction in the country, would be the logical place for future development.

Paul W. Litchfield, chairman of the board of the Goodyear Tire and Rubber Co., has been one of the foremost exponents of the dirigible for war and peacetime use for nearly 40 years.

Testifying before Weichel's committee, he urged "direct action" on a five year program which would include government construction and operation of two 10,000,000 cubic foot airships.

This size compares to the 7,000,000 cubic foot Hindenburg, up to now the largest airship ever constructed.

Litchfield purposes a ship 950 feet long, able to carry up to 258 passengers or, as a freight ship, a 90-ton payload of cargo over a 2,500 mile route, such as from the west coast to Honolulu.

Maximum range would be 11,000 miles. He estimates basic passage fare could be, if commercially operated, five cents a mile, or $215 for a San Francisco-Honolulu round trip.

Litchfield asserts that the dirigible has a niche in overseas transportation alongside the airplane and the steamship.

# NEW GOVERNMENT DUE IN TURKEY

ANKARA, Turkey, June 10—The government of Premier Hasan Saka collapsed today under harsh fire policies,

from critics of its domestic economic

Foreign policy played no part in the disputes which led up to the Saka cabinet's unexpected resignation early this morning. Turkey is receiving American aid under the Truman doctrine, intended to protect Greece and Turkey from Communist pressure.

President Ismet Inonu accepted the cabinet resignation but immediately asked Saka to form a new government.

Saka has been premier since last September, when the cabinet of Premier Recep Peker fell in a similar dispute.

Shortages of staple foodstuffs, charges of irregularities in the export of grains and the failure of the government to adjust the weak economic structure of the nation combined to force today's cabinet upheaval.

One of the loudest complaints, and the most frequently heard, concerned the wheat shortage.

# U. S.-British Agree On Aid To Holy Land

WASHINGTON, June 10 — The United States and Britain today were reported to have reached agreement on a mutual attitude on the Palestine question.

Most of the British - American differences developed on the Holy Land struggle have died down in recent days. This followed the British decision not to ship arms to Arabs in the area and the United Nations acceptance of Britain's truce proposals.

It was understood that Sir Oliver Franks, the United Kingdom's new ambassador to the U. S., played an important part in London action to quiet the troubled diplomatic waters agitated by the Palestine issue.

Discussions of the problem were conducted in London by U. S. Ambassador Lewis Douglas. He conferred repeatedly with British Foreign Minister Ernest Bevin prior to Britain's decision on the embargo and her truce proposal.

Good News For Folks Who Suffer From

✓ STOMACH GAS
✓ SOUR FOOD TASTE
✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

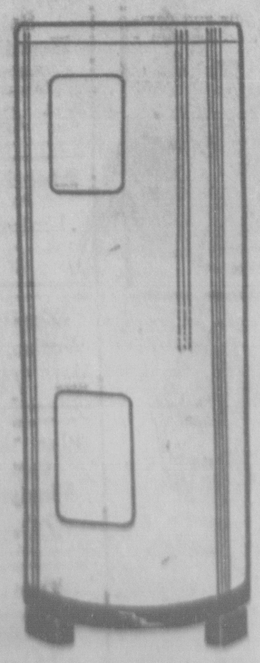

Avoid punishing yourself with overdoses of soda and other alkalizers to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

There's NO WAITING with an ELECTRIC WATER HEATER

If warm weather makes a loafer of your water heater, it's time to switch to automatic electric water heating for hot water in a hurry.

No more waiting or testing, no setting or adjusting, because your electric water heater is completely automatic . . . you simply connect it and forget it while you enjoy the comfort and convenience of a constant, dependable supply of clean hot water . . . yet, hot water's ready and waiting at the nearest faucet when you heat water electrically.

And you'll be surprised at the low cost . . . a special low rate for electric water heating makes it truly a bargain . . . just a few cents a day.

# COLUMBUS VOTERS APPROVE NEW TAX

## O. K. Income Tax To Put City On Paying Basis For Next Year

COLUMBUS, June 10 — Speaking with ballots, Columbus voters have endorsed the remedy—a municipal income tax—prescribed for the city's anemic treasury.

In a special referendum, voters yesterday approved a one half of one percent payroll-income tax 34,190 to 24,003.

Commenting on the favorable majority, Mayor James A. Rhodes said it would shoot new pep into the city's financial arteries and establish Columbus "s a pay-as-you-go metropolitan city."

Columbus was the second Ohio city to approve such a tax. Toledo voters okehed a similar levy two years ago by a 57 percent favorable vote.

Since then Springfield has enacted a city income tax. Youngstown will have a three-mill tax for 18 months beginning July 1.

Columbus adopted its tax six months ago. The levy netted $523,000 the first three months. Officials added to the police and fire force, and claimed stepped up garbage and rubbish collections, and other improved city services.

Yesterday's special election marked the eighth time in 14 years that Columbus residents were asked to vote additional taxes on themselves. The seven previous attempts—all calling for higher real estate taxes—failed.

The vote was the highest in a special Columbus election. The previous record vote was 38,000. However, the Columbus total was 15,000 below that cast in Toledo during a bitterly-contested income tax campagn.

Only in one Columbus ward—the 13th—did the tax fail to win a majority. The count there was 871 and 981 against.

## Demonstrators Protest New Orleans Tax Cut

Placard-bearing demonstrators from New Orleans march on the Louisiana state capitol in Baton Rouge to protest a cut in their city's sales tax, which helps support aged, orphaned and afflicted persons. New Orleans Mayor deLesseps Morrison appeared before the Louisiana House to urge voting down the proposed slash, but the legislative body later approved the bill.

# Former Secretary Suing Gen. Meyers

(By Associated Press)

NEW YORK, June 10—The former secretary of Bennett E. Meyers is suing the retired Air force general for $250,000, charging he made "false" and "defamatory" statements about her.

Mrs. Mildred R. Lamarre filed suit yesterday in federal court

In an affidavit, she said Meyers imputed in statements before a senate investigating committee that she was an "unchaste woman, unfaithful to her husband and her marriage vows."

Meyers, wartime air forces procurement officer, is serving a prison term for inducing Mrs. Lamarre's husband, Bleriot H. Lamarre, to make false statements to the committee concerning Meyers' activities.

Lamarre served as president of the Aviation Electric Corp., of Vandalia, Ohio, which Meyers allegedly owned. Lamarre has been indicted for perjury.

Mrs. Lamarre, of Dayton, Ohio, said in her affidavit that Meyers told the senate committee:

"I had an affair with this gal. It lasted for eight years. She was good looking at that time. I was intimate with her."

She charged the general testified falsely, that his statements were "injurious to my reputation and character," that they caused her mental anguish and bodily harm, and that as a result she is ill.

# Strikers Ask New Cabs In E. Liverpool

EAST LIVERPOOL, June 10—Striking AFL bus drivers have asked the city to grant three new applications for taxicab service to accommodate persons affected by the drivers' three-day bus strike in the upper Ohio River valley area, Mayor Harry C. Smith said today.

The strike Monday of 121 AFL drivers and 80 independent unionists employed as garagemen halted service of the Valley Motor Transit Co. for 50,000 daily riders in 20 Ohio, Pennsylvania and West Virginia communities. Drivers asked 30-cent hourly pay hikes and garagemen demanded 20-cent increases.

At Steubenville, city council planned to test a city solicitor's ruling that Valley Motor has no exclusive franchise there. The test was expected to be an invitation to other bus companies to initiate service.

## TRUMAN ERROR "EMBARRASSING"

CAREY, Ida., June 10—President Truman found himself in an embarrassing spot yesterday when he dedicated an airfield to a boy killed in the war, only to learn that it was a girl killed in a mishap at home.

Truman said he was happy to be able to present a dedication wreath to the parents of a boy who died that liberty might live.

The President was told of the error, and said: "Well, I congratulate you. It was for the welfare of the country that she did it."

Wilma Coates, 16, was killed in a plane crash a year ago in February.

Truman shook hands with the girl's parents, Mr. and Mrs. Sheldon Coates, and said he was sorry for his mistake.

"Oh, that's all right," Mrs. Coates said.

# VANDENBERG ASKS FULL ERP SUPPORT

## Decries Slice On Aid-to-Europe Program, Passed In House Bill

(By Associated Press)

WASHINGTON, June 10—Senator Vandenberg (R-Mich.) today called a house cut in foreign aid funds a "dangerous and improvident" decision which "cuts the enterprise."

The senate foreign relations chairman gave these views to the senate appropriations committee which is considering the foreign aid appropriations bill.

The administration had asked $6,533,000,000 for a 12 month program. The house last week voted to slash the amount to $5,980,000,000 and spread it over a 15-month period.

Vandenberg said the house cuts in the Economic Cooperation Administration have been variously estimated from one half to two billion dollars. He said the latter figure "is probably closer to the net effect."

He said that in effect congress had voted last spring to undertake the job of helping Europe back to economic health, but now the house was refusing the money to back up that policy.

Vandenberg said the declared policies of congress should not be vetoed in that manner and branded 'before the world as capricious, unreliable and impotent."

Vandenberg went on:

"I would be the last to say that the figures are untouchable.

"But I do quarrel, Mr. Chairman, with any reductions which subvert the principles and purposes of the original congressional commitment. I emphatically quarrel with the final, overall, meat-axe technique.

"In one fell swoop this takes away something like a billion dollars without a scintilla of regard for all of the carefully screened figures upon which all ECA estimates were made and upon which its program must be built."

The ECA is the European Economic Administration, the organization set up to administer the aid-Europe program.

## It Cost $10, But Maybe Lesson Was Worth It All

WORCESTER, Mass.—It cost $10 but 13-year-old Roland Hubereauld had a lesson he is not likely to forget.

With a $10 bill, the lad set out to buy an air rifle. A sporting goods st[illegible] clerk said he was too young.

Hubereauld met an older youth who agreed to buy it. Roland waited outside for some time, then went in to investigate.

The "friend" had slipped out of the store by a side door with the $10.

## That's Too Much, Lady

BANGOR, Me., June 10—Police have to draw the line somewhere.

The Bangor force thought the time had come yesterday. A woman telephoned that a setting hen had deserted its eggs and "can an inspector come out and investigate?"

She was advised to consult a poultry expert.

## His Recipe For Painless Dentistry; Go Get Drunk

DANVILLE, Ill.—Dr. W. B. Hall is giving up dental practice after 52 years. He still recalls the man who scorned medical science.

The patient walked into his office and stubbornly refused an anesthetic.

"I've been drunk every time I've had a tooth pulled so far and I'm not going to change now," the individualist declared.
